

Rules for building and telling your Instagram story:

Each box should tell us a little about a stage of life and how you saw God in that stage of life. (ex. God was not a part of my upbringing, God was the foundation, I knew of God but I didn't know Him)

Each box represents a different part of your story, this should include a few boxes since you've become a Christian with your last box being you today.

Put a picture or drawing in each box that captures the essence of that stage.

Keep the caption short and sweet (it should be tweetable no more than 123 characters). Feel free to use #'s (hashtags) like you would on Instagram

Each person should keep their share to 3 minutes. Practice before you share. Keeping stories reasonable in time will mean that everyone gets a chance to share.
